

# BY THE GLASS

## WINES FOR THE WARMER WEATHER

*As the fickle days of spring roll along, we are bestowed with temperamental changes in the weather as the first dots of green give way to the luscious blooms of summer. This collection of wines by the glass reflects our commitment to quality, value & promoting lesser known grape varietals and regions, with emphasis on small production wineries along with the classics. Our featured wines graciously bridge the changing climate of the season as days grow warmer & the sun lingers longer. Time was taken to highlight wines that are produced using organic, biodynamic, and sustainable agricultural practices.*

*We hope you enjoy!*
