

BY THE GLASS

WINES FOR A COOLER CLIMATE

With a chill in the air comes the sound of crackling logs and the scent of roasting meats & spiced pies. The last harvest is gathered and the fields prepared for their winter rest. What better way to compliment these seasonal shifts than with a glass or bottle of wine?

This season's wines by the glass perpetuate our pursuit for quality wines of lesser known grape varietals and regions. These wines graciously bridge the changing climate, as daylight dwindles & sweaters offer that extra layer of warmth.

Where possible, we picked wines that are natural, organic, & made with sustainable agricultural practices. We are always in pursuit of new knowledge in which to pass along to you, our guest. It is our goal to avoid the pretense that often comes with wine, as we believe it should be fun and approachable! Our staff is more than happy to answer any questions and sample you on a glass option, whenever possible. We hope you enjoy!
